

# Introducing the National Databank

# Introducing the National Databank

- The aim is to support over 500,000 people who are unable to get online with **free access to the internet**
- **Vodafone, Three** and **Virgin Media O2** have donated 47m gigabytes of data
- Over **1000 organisations** now have access to gift free data

# Who can receive free data?

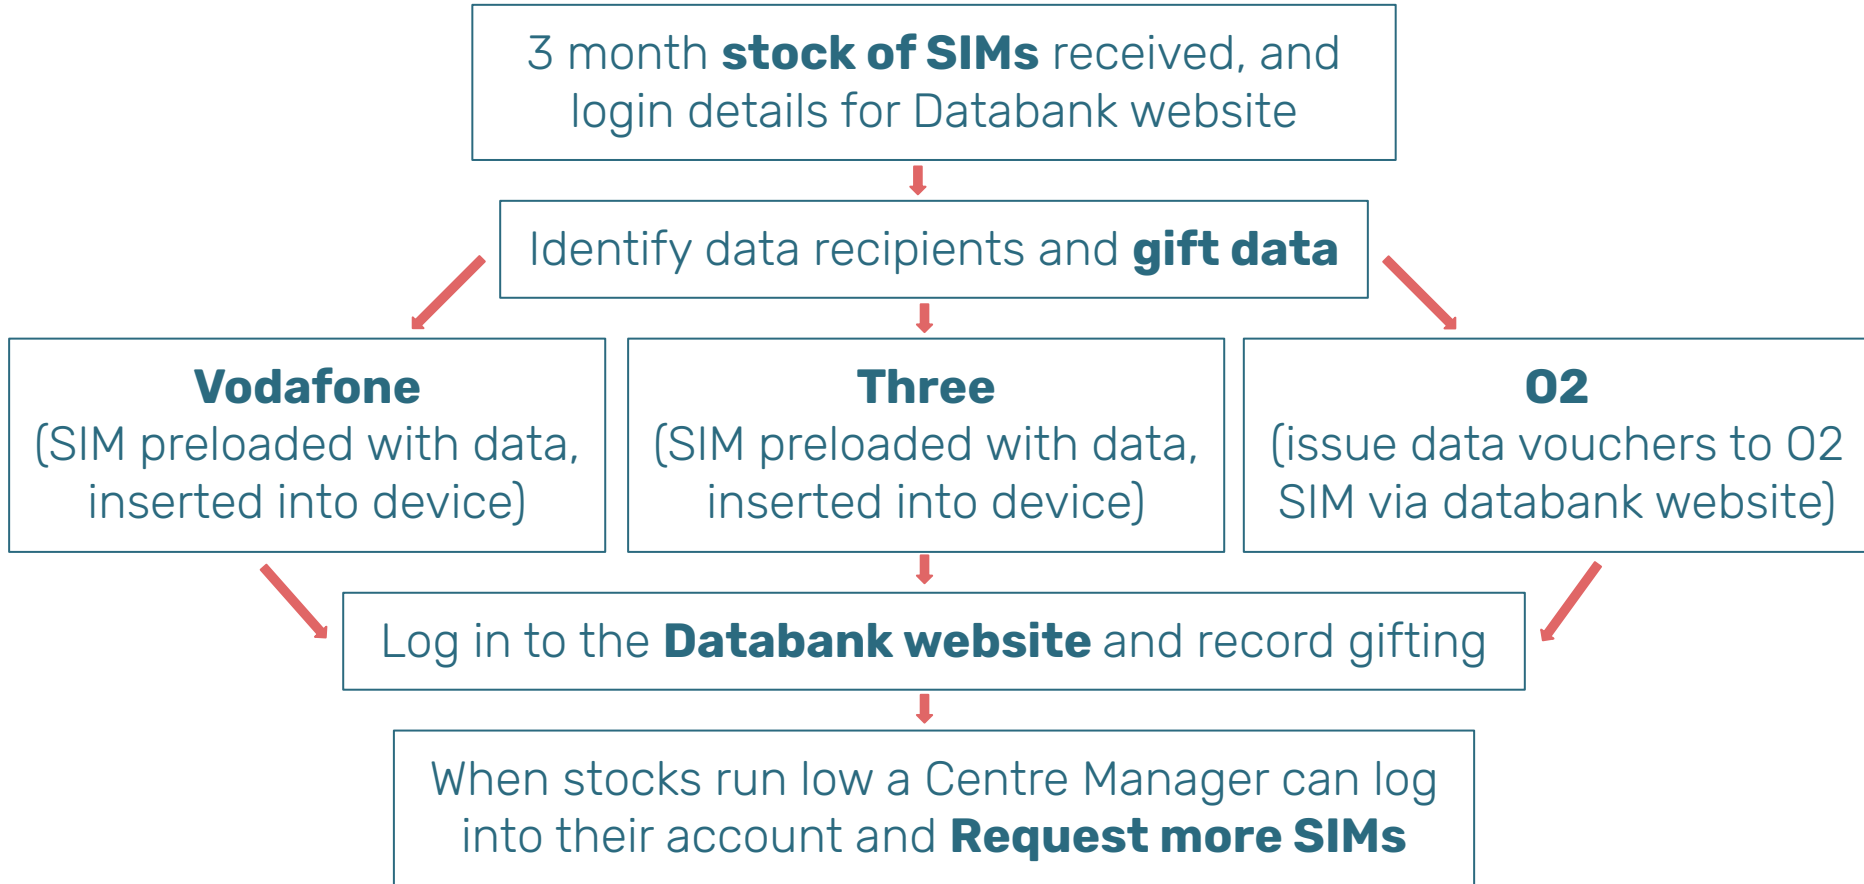

Someone receiving data through the National Databank must be:

- 18+ years old
- From a low income household

And qualify in **at least one** of the following statements:

- Has no access or insufficient access to the internet at home
- Has no or insufficient access to the internet when away from the home
- Cannot afford their existing monthly contract or top up

# Databank Overview

# Data available

## Vodafone

- **40GB, free calls and texts** for 30 days, refreshes automatically for **6 months**

## Three

- **24GB** data in total

## O2

- **25GB, free calls and texts** for 30 days from activation
- Vouchers can be issued for **1 - 6 months**

# Activating Data

## Vodafone & Three

- SIM cards arrive preloaded with data
- At the time of gifting the data, log in to the [Databank website](#) and record the SIM as gifted

## 02

- Vouchers are compatible with **02 PAYG SIMs**. Gift someone one from your stock, or if they are already on 02 PAYG, they will not need a new SIM card
- Log in to the [Databank website](#) to issue monthly **data vouchers** to the recipient
- The data recipient will then be able to call 02 **activate** the voucher or select the link in the text message

# Activating Data

- SIMs can be used in any **SIM enabled device** (that is unlocked or compatible with Vodafone / O2 / Three)
- O2 SIMs have an expiration date and will need to be activated before to receive data
- Someone can **keep their number** by following the instructions on the O2 / Vodafone websites
- Someone can receive data for up to **12 months** in total

# Responsibilities

- Please **do not share your login information** with anyone (each user needs their own account)
- If you are collecting personal information please store this securely using your **data protection** processes and procedures
- The data **must not be sold** on or exchanged for a monetary value
- If there are any suspected incidents of **fraud or misuse**, please report them to us immediately

# Responsibilities

- **Store SIM cards safely and securely** (for example in a locked safe). If any issue with delivery please let us know immediately. The SIMs loaded with data have a high value so must be accounted for at all times
- The data is to be gifted to **people that you support directly**. If other partner organisations you know need access to data, they should apply through the National Databank

# Accepting your contract

- Once your application has been reviewed and approved, log in to <https://network.goodthingsfoundation.org/>
- Go to **'View my hub'**. On the right-hand side, you'll be able to review and accept the National Databank contract before being able to access the Databank platform

The screenshot shows two side-by-side panels. The left panel, titled 'My Hub membership', lists several items with green checkmarks: 'Hub details' (Hub name, legal status, address(es)), 'Hub profile' (Areas of work, who you support, public opening, Network map info and contact preferences), 'Membership agreement' (You've accepted, review the Membership agreement?), and 'Users' (Manage your users). The 'Bank details' item has a red X and states: 'We were unable to verify your bank details. Please check you have entered them correctly or visit [Get support](#) for more help.' The right panel, titled 'National Databank ?' with a question mark, contains the text: 'We've offered you a National Databank contract, visit [Applications](#) to accept it.' Below this is the 'National Device Bank' section with the text: 'We will let you know when you can apply to join the National Device Bank.' The 'Funding' section includes a link: '[What funding is available?](#) →'. At the bottom of the right panel is a yellow button labeled 'View existing applications'.

**My Hub membership**

- ✓ **Hub details**  
Hub name, legal status, address(es)
- ✓ **Hub profile**  
Areas of work, who you support, public opening, Network map info and contact preferences
